

Jasmeet Kaur

Talent Acquisition Specialist

saluja.jasmeet43@gmail.com

Talent Acquisition professional with 5+ years of experience across technical recruitment and HR operations, including hands-on experience in a fast-paced startup environment. Built recruitment processes from the ground up and contributed to startup headcount growth from 3 to 46 employees while independently delivering 150+ third-party/client hires. Strong in full cycle recruitment, niche and passive sourcing, talent identification, stakeholder partnership, candidate assessment, offer management, talent pipelines, recruitment analytics, market mapping and candidate experience across technology and business hiring.

WORK EXPERIENCE

Consultant – Human Resources | Talent Acquisition & Technical Recruitment

Obrimo Technologies
12/2023 - Present

Accomplishments / Tasks

- Operate in a fast-paced startup environment and helped build and strengthen recruitment processes from the ground up, contributing to organizational headcount growth from 3 to 46 employees.
- Own the full recruitment lifecycle from requirement intake, sourcing and talent identification through screening, interview coordination, offer negotiation, pre-joining engagement and onboarding support.
- Independently delivered 150+ third-party/client hires while managing and prioritizing multiple concurrent requisitions across technology and business requirements.
- Build reusable pipelines and perform market mapping for niche, recurring and hard-to-fill technology requirements, balancing candidate quality, speed and stakeholder expectations
- Manage offer rollout and negotiation support, pre-joining follow-ups and joining outcomes to reduce drop-offs and support successful closures.

HR Operations Executive

Graphic Era Deemed to be University
07/2020 - 07/2022

Accomplishments / Tasks

- Supported recruitment coordination, onboarding, employee documentation, HR records/database maintenance, reporting and employee engagement activities.
- Coordinated interviews and joining formalities while maintaining accurate employee information and supporting day-to-day HR administration and employee queries.
